

Construction Site

You are in front of south gate of a construction site. There are many workers, a supervisor and containers with various construction equipment.

- > ask(supervisor, building_details)
 - Hey may I ask you what are you building here?
 - New lifeinvader headquarters
- > ask(supervisor, drill)
 - Hi do you guys have a concrete drill? I'm collecting tools necessary for bank heist
 - What do you mean? I'm calling the cops
- > ask(supervisor, containers)
 - Hey, may I ask you what is in these containers?
 - Construction equipment. If I remember correctly, there is a concrete mixer machine in the yellow one, a concrete drill in the blue one and some steel beams in the white one. I'm not sure about other ones though.
- > n.
 - You entered construction site area. There is a row of colorful containers to your right site. You can also take a closer look at construction workers, as well as the uncompleted building.

disclaimer
(going e/w moves you right/left across the containers row. When you move right, past the 7th container, you reach the east gate, through which you can leave the construction site)

look(bulding)
In front of you, there is a tall, about 20 stories high building. It doesn't have windows, and there is plenty of workers at its higher floors.

look(workers)
You see plenty of workers around you. Every single one of them has a reflective orange vest, and yellow helmet

talk(workers)
Hey how are you?
Doing great! Can't wait to see this beauty finished!

- ***disclaimer***
containers order:
black, yellow, red, blue, green, white
containers content:
steel_beams, concrete mixer machine, crane parts, concrete drill, windows, empty
When leaving the construction site you need to have a concrete drill in your equipment.
- > look(container)
 - You found a concrete mixer_machine/The container is empty!
 - > e. (when at the last container)
 - You reached the east gate, you can leave the site through here
- look(when at east gate).
You are at the east gate of a construction. There is not much going on here
- take(drill)
You picked up the drill. Damn, its h
